

SOC Autumn Meeting
Friday 1st October 2004

*Stirling Management Centre,
University of Stirling*

Rapid-fire Presentations

TTT in the treatment of occult CNV in AMD – A randomised controlled clinical trial.

K Myint, A Armbrrecht, S Mon, C Lumsden, B Dhillon

Visual and anatomical outcomes of pars plana vitrectomy for removal of retained lens fragments.

T Hammam, W Ho, J Murdoch

Wide-field multifocal electroretinography (WF-mfERG) in the assessment of eyes with retinal vein thrombosis.

F Dolan, S Parks, D Keating, G Dutton, A Evans

Arteriovenous sheathotomy surgery for branch retinal vein occlusion.

M Muquit, J Murdoch

Retinopathy of prematurity: are we screening efficiently?

S Sivakumar, M Matthew, T Lavy

Idiopathic orbital inflammation – a clinicopathological study.

S Saidkasimova, P Kyle, F Roberts

A case of venous sinus thrombosis with visual field loss.

M Gupta, L Webb

Oculopharyngeal muscular dystrophy – an underdiagnosed condition?

S Zachariah, D Mansfield

Unilateral mydriasis: should you panic?

V Chadha, P Kearns

The efficacy of orthoptic exercises in patients with asthenopic symptoms.

A Aziz, M Cleary, H Stewart, C Weir

High volume cataract teaching list, an oxymoron?

V Chadha, P Kearns

Cataract surgery cancellations – reasons and implications.

P Agarwal, M Viridi

The eradication of blinding trachoma in Northern Laikipia, Kenya.

D Morris

The Dundee University Scottish Keratoconus Study (DUSKS).

K Weed

BRAF mutations in conjunctival melanoma.

H Gear, H Williams, E Kemp, F Roberts

Idiopathic orbital inflammation after sub-tenons local anaesthesia.

S Mukherji, L Esakowitz

A rare cause of mantle cell lymphoma presenting as bilateral lacrimal gland tumour with prolapse.

S Nureludha, M Mathew, C Diaper, A Morrison, C Harper

Sweet's syndrome associated with disc swelling.

K Schielke, J Scott, J Olsom, J Forrester

Intraocular foreign bodies & BOSU.

F Imrie, C MacEwen

Debates on Surgical Procedures and Training Issues

Debate 1

Endonasal dacryocystorhinostomy is better than the external approach

For: Mr White

Against Dr I Hanna

Debate 2

All retinal detachments require an internal approach.

For: Dr H Bennett

Against: Dr I Whyte

Debate 3

Training is more important than experience – despite shorter working weeks and more rapid training programmes, newly appointed consultant ophthalmologists are as capable as they were 20 years ago.

For: Mr S Cook

Against: Mr T Barrie

Key Speech

Current issues in Ophthalmology

Mr N Astbury [*President, Royal College of Ophthalmologists*]
